FlightFinder - Understanding Our Users

👤 USER PERSONA: Flight Booking Customer

Name: Rajesh Kumar | **Age:** 32 | **Occupation:** Software Engineer

Goal: Book a convenient and affordable flight for a business trip with minimal hassle

💭 THINKS & FEELS

What really matters to the user?

- "I need to find the best flight quickly without wasting time"
- "I hope the booking process is simple and secure"
- "I'm worried about hidden charges and fees"
- "I want to ensure my payment information is safe"
- "I need flexibility to change or cancel if plans change"
- "I hope the website is reliable and won't crash"
- "I want confirmation immediately after booking"
- "I'm concerned about getting the best price"

👁️ SEES

What does the user see in their environment?

- Multiple flight booking websites with different prices
- Advertisements for travel deals and discounts
- Friends and colleagues booking flights easily
- Social media posts about travel experiences
- Complex booking forms with many fields
- Reviews and ratings of airlines and booking platforms
- Promotional emails from various travel sites
- Mobile apps for flight booking

💬 SAYS

What does the user say to others?

🏃 DOES

What actions does the user take?

- "I need to book a flight for next week"
- "The booking process should be straightforward"
- "I want to compare different flight options"
- "I prefer websites that show all costs upfront"
- "I need to book for multiple passengers"
- "I want to choose my preferred seat class"
- "I'd like to see my booking history easily"
- "Customer support should be accessible if needed"

- Searches for flights on multiple websites
- Compares prices across different platforms
- Reads reviews before making a decision
- Checks flight timings and availability
- Enters passenger details carefully
- Verifies booking details before payment
- Saves booking confirmation emails
- Checks booking status periodically
- Contacts customer support for issues

👂 HEARS

What does the user hear from others?

- "That website has the best deals"
- "I had a terrible experience with booking cancellations"
- "Make sure to read the terms and conditions"
- "Some sites have hidden fees at checkout"
- "Book early to get better prices"
- "Check if the site is secure before payment"
- "Customer service is important for flight bookings"
- "Mobile apps are more convenient than websites"

😊 😟 FEELS (Emotions)

What are the user's emotional states?

- **Anxious:** About making the right choice and payment security
- **Frustrated:** With complicated booking processes
- **Hopeful:** To find a good deal and smooth experience
- **Impatient:** Wants quick results and fast booking
- **Relieved:** When booking is confirmed successfully
- **Worried:** About potential booking errors or issues
- **Satisfied:** When the process is simple and transparent

😰 PAINS (Frustrations & Obstacles)

- **Time-consuming:** Too many steps in booking process

😊 GAINS (Desires & Needs)

- **Quick Booking:** Complete booking in under 5 minutes

- **Confusing Interface:** Difficult to navigate and find information
- **Hidden Costs:** Unexpected fees at final checkout
- **Security Concerns:** Worry about data and payment safety
- **Limited Options:** Can't filter flights by preferences
- **Poor Support:** Difficulty getting help when needed
- **Booking Errors:** Mistakes in passenger details or dates
- **No Flexibility:** Hard to modify or cancel bookings
- **Lack of Transparency:** Unclear pricing and policies

- **Clear Pricing:** See all costs upfront with no surprises
- **Easy Search:** Find flights quickly with smart filters
- **Secure Payment:** Confidence in data protection
- **Instant Confirmation:** Immediate booking confirmation
- **Flexible Management:** Easy to view, modify, or cancel
- **Multiple Options:** Choice of seat classes and airlines
- **User-Friendly:** Intuitive interface requiring no training
- **Reliable Platform:** No crashes or technical issues
- **Good Support:** Help available when needed

📊 Key Insights

- **Primary Need:** Simple, fast, and secure flight booking experience
- **Main Pain Point:** Complex processes and lack of transparency in pricing
- **Desired Outcome:** Hassle-free booking with clear information and instant confirmation
- **Success Factor:** Trust through security, transparency, and ease of use
