✅ User Acceptance Testing Report

FlightFinder - Flight Booking Application

Test Period: [Start Date] to [End Date] | Version: 1.0

1. Executive Summary

Metric	Result	Status
Total Test Cases	85	-
Passed	78 (92%)	✅ PASS
Failed	5 (6%)	❌ FAIL
Pending	2 (2%)	⏳ PENDING
Overall Status	92% Pass Rate	✅ APPROVED
User Satisfaction	4.6/5.0	✅ EXCELLENT

2. Test Participants

User Type	Count	Profile
Customers	15	Ages 25-55, frequent travelers
Flight Operators	5	Airline representatives
Administrators	3	System administrators
Total	**23**	-

3. Customer Features Testing

ID	Test Case	Priority	Result	Status
C-001	User registration with valid data	High	15/15 passed	✅ PASS
C-002	User login with correct credentials	High	15/15 passed	✅ PASS
C-003	Search flights by origin and destination	High	14/15 passed	✅ PASS
C-004	Past dates disabled in date picker	High	15/15 passed	✅ PASS
C-005	Select seat class (Economy/Business/First)	High	15/15 passed	✅ PASS
C-006	Book ticket for single passenger	High	14/15 passed	✅ PASS
C-007	Book ticket for multiple passengers (3)	High	13/15 passed	❌ FAIL
C-008	Dynamic price calculation	High	15/15 passed	✅ PASS
C-009	View booking confirmation	High	15/15 passed	✅ PASS
C-010	View all bookings in dashboard	High	14/15 passed	✅ PASS
C-011	Cancel confirmed booking	High	15/15 passed	✅ PASS
C-012	Logout functionality	Medium	15/15 passed	✅ PASS

4. Flight Operator Features Testing

ID	Test Case	Priority	Result	Status
O-001	Operator registration	High	5/5 passed	✅ PASS
O-002	View approval pending status	High	5/5 passed	✅ PASS
O-003	Add new flight with all details	High	4/5 passed	❌ FAIL
O-004	Edit existing flight details	High	5/5 passed	✅ PASS
O-005	View own flights only	High	5/5 passed	✅ PASS
O-006	View bookings for own flights	High	5/5 passed	✅ PASS
O-007	View passenger details in bookings	Medium	5/5 passed	✅ PASS

5. Admin Features Testing

ID	Test Case	Priority	Result	Status
A-001	Admin login	High	3/3 passed	✅ PASS
A-002	View all users	High	3/3 passed	✅ PASS
A-003	View pending operator requests	High	3/3 passed	✅ PASS
A-004	Approve operator registration	High	3/3 passed	✅ PASS
A-005	Reject operator registration	High	3/3 passed	✅ PASS
A-006	View all flights across operators	High	2/3 passed	❌ FAIL
A-007	View all bookings	High	3/3 passed	✅ PASS
A-008	Monitor system activity	Medium	2/3 passed	❌ FAIL

6. Usability Testing Results

Criteria	Rating (1-5)	Feedback
Ease of Navigation	4.7/5	Very intuitive, clear menu structure
Booking Process Simplicity	4.8/5	3-step process is excellent
Visual Design	4.5/5	Clean and professional
Response Time	4.6/5	Fast and responsive
Error Messages	4.3/5	Clear but could be more helpful
Mobile Responsiveness	4.4/5	Works well on mobile devices
Overall Satisfaction	4.6/5	Highly satisfied

7. Issues Identified

ID	Issue Description	Severity	Affected Users	Status
I-001	Multiple passenger booking fails occasionally	High	2/15 customers	⏳ In Progress
I-002	Flight addition form validation error	High	1/5 operators	⏳ In Progress
I-003	Admin panel slow with large datasets	Medium	1/3 admins	✅ Fixed
I-004	Search results not showing all flights	High	1/15 customers	✅ Fixed
I-005	Dashboard refresh needed after cancel	Low	3/15 customers	⏳ Planned

8. User Feedback Summary

Positive Feedback:

- "Very easy to use, booked my flight in under 3 minutes!"
- "Love the transparent pricing - no hidden fees"
- "Past date blocking is a great feature"
- "Dashboard is clean and shows all my bookings clearly"
- "Operator panel makes flight management so easy"
- "Admin approval process is straightforward"

Areas for Improvement:

- "Would like email notifications for bookings"
- "Need better error messages when something fails"
- "Want to see flight status updates"
- "Mobile app would be great"
- "Add payment gateway integration"

9. Recommendations

Critical (Before Launch):

- Fix multiple passenger booking issue (I-001)
- Resolve flight addition validation error (I-002)
- Complete pending test cases

High Priority (Next Sprint):

- Implement email notifications
- Improve error messaging
- Add auto-refresh after operations

Future Enhancements:

- Payment gateway integration
- Mobile application
- Flight status tracking
- Advanced search filters

10. Conclusion

Overall Assessment: FlightFinder has successfully passed User Acceptance Testing with a 92% pass rate and 4.6/5 user satisfaction score. The application meets all core requirements and provides an excellent user experience.

Recommendation: **APPROVED FOR PRODUCTION LAUNCH** after resolving 2 critical issues (I-001 and I-002).
